

HYDRAULIC AND MECHANICAL NUT SPLITTERS

MECHANICAL NUT SPLITTER

- Features a flat upper piece instead of a rounded design to ensure that the nut does not rotate while splitting.
- Improved nut placement and perpendicular chisel position allows for an easy nut split without damage to the thread.

PRODUCT CODE	PRODUCT INFORMATION
03360500	Nut Diameters- 4-17mm Thread - Up to M10 Max. Torque - 38 Nm Dimensions - M14 x 1.5 x 47mm
03360600	Nut Diameter- 8-24mm Thread - M5 - M16 Max. Torque - 50 Nm Dimensions - M14 x 1.5 x 47mm
03360700	Nut Diameter- 19-38mm Thread - M12 - M24 Max. Torque - 190 Nm Dimensions - M18 x 1.5 x 50mm

HYDRAULIC NUT SPLITTER

- Removes seized nuts without damaging threads.
- Allen key hex drive.

033600V2-

- Supplied in steel storage case.

PRODUCT CODE	PRODUCT INFORMATION
033600V2	37mm Hydraulic Nut Splitter
031600V2	22mm Hydraulic Nut Splitter
